b,
buildings with a first PV appearance count weighted
97.3% existing
359,527 buildings
new 2.7%
+3.5 pp · 2.28×
PV area on the same buildings area weighted
new 6.2%
20.348 km²
93.8% existing

c,
existing building/new building ratios
Stock exposure
Event intensity
Event footprint
Total PV area
Washington DC 43.7× 1.57× 0.32× 22.2×
Los Angeles 40.4× 0.79× 0.31× 10.00×
Phoenix 16.0× 1.72× 0.54× 14.8×
Denver 46.2× 0.52× 0.49× 11.8×
Boston 44.3× 3.42× 0.17× 26.5×
Dallas 30.0× 0.88× 0.25× 6.49×
New York City 55.3× 2.17× 0.42× 50.5×
Miami 50.3× 0.98× 0.66× 32.5×

All cities 33.4× 1.08× 0.42× 15.2×
log₂ (contribution)
new building ← 0 → existing building

d,
nominal kWdc-equivalent per newly observed building
PV area per newly observed building (m²; log scale)
observed new building
parity to existing
